CHAPTER 1. INTRODUCTION

A Platform which focuses on connecting labours and contractors. There are various platforms for different purposes and building connections all over the world, but in India where there is a large number of unemployed and daily workers there is not any platform assuring them source of income. Our platform is going to give income sources and various assistance.

1.1 Problems being focused

- Labours don't get a basic living expense
- Lack of job security and poor working condition
- Childrens of workers not getting quality education
- For work, they live far from their homes
- Language barrier

1.2 Objectives

- ³ The centre of monitoring Indian economy a private organisation estimates India's unemployment rate is ¹ 7.95%, at present it is 7.93% in urban India where as only 7.44% in rural
- Urban joblessness has direct correlation with the restrictive and rural market suffers from a mass disguised unemployment
- There are more unemployment in urban comparison to rural areas people are traveling towards to urban areas for employment because they don't have any proper platform. So, here we are trying to give a proper platform to find employment easily

CHAPTER 2. METHODOLOGY

Methodology refers to the method used in completion of the research.

2.1 Techniques

This research is accomplished by following EMPIRICAL METHOD where ground work was done by all the members and data was directly collected from the subject itself.

- Rural area workers
- Construction-site workers
- Contractors
- Recruitment agencies
- Agriculture managers and farmers
- Manufacturers and logistics

CHAPTER 3. RESULTS

The outcomes received after completing the research

3.1 Main Discoveries

- Implementing this platform will be very helpful for the daily workers.
- It will provide job security.
- Will help in betterment of their lifestyle.
- Help in giving quality education to the children of labours and daily workers.
- Will contribute in Country's economy on mass level.

3.2 Summary Comparison

Some facilities that can only be provided to the workers using only this platform

- The labours will be able to live with their family.
- Workers can easily find the jobs and opportunities nearby them.
- The places will be fully facilitated with proper washroom and environment.
- There will be not any language barrier and they can live their life stable.
- They can fill their basic needs of their families and they can get proper health and life insurance for themselves.

CHAPTER 4. CONCLUSION

Implementation of this platform will be very helpful in boosting the Country's economy. It will bring happiness on the faces of daily workers, labours and their families by providing job security, better lifestyle and source of income. Will also help in removing barriers i.e. language.
